## EXPERIENCE

### **Weebly, Scottsdale, AZ — Customer Success Advocate**

October 2015 - September 2017

CSA Chat Team member, responsible for working with customers to troubleshoot technical issues, teaching them how to use Weebly's drag-and-drop WYSIWYG editor, and providing mobile-first design suggestions and feedback. Take-aways from this position included strong troubleshooting skills, and improved communication skills, Working for Weebly is what inspired me to become a web developer.

### **Londen Insurance Group, Phoenix, AZ — CSR, Leads Team**

December 2011 - October 2015

I worked directly with our customer base, reviewing policy details and filing claims. I was promoted twice - Level II CSR, and then to the Leads team, which developed direct-mail marketing programs, and managed lead accounts for the various agencies selling Londen policies. Valuable take-aways from this position were team collaboration and communication experience and deadline management.

## EDUCATION

### **California State University, Long Beach - College of Business**

August 2008 - March 2011

Finance Major, Dean's List Fall 2009, Sailing Club. Withdrew Spring 2011 due to a significant health issue and moved back to Arizona.

## PROJECTS

### **Clamour.io**

Currently in development, Clamour.io is a cryptocurrency market analysis platform. Using self-developed algorithms, Clamour.io finds potentially profitable trade opportunities and scores them based upon calculated potential. Beta target release date is mid-November. Code can be found on my Github profile. Link at [www.bradrumack.com](http://www.bradrumack.com)
